PROFESSIONAL SUMMARY

Recent Software Engineering graduate (2021-2026) with hands-on internship experience at Ethiopian Airlines, where I contributed to real-world software solutions in a fast-paced, professional environment. Skilled in full-stack development with a strong foundation in JavaScript, React, Node.js, and database design. Fluent in English and a native Amharic speaker, with a proven ability to collaborate across teams, learn quickly, and deliver clean, efficient, and scalable code. Passionate about building impactful software and continuously growing as a developer.

WORK EXPERIENCE

Software Engineering Intern — Ethiopian Airlines *Mar 2025 – Jun 2025*

Addis Ababa, Ethiopia

- Collaborated with senior engineers to design, develop, and test software modules supporting internal airline operations.
- Assisted in building and maintaining web-based tools, contributing to both front-end and back-end development tasks.
- Participated in code reviews, debugging, and troubleshooting sessions to improve application performance and reliability.
- Worked within an Agile team environment, taking part in daily stand-ups, sprint planning, and documentation.
- Gained practical exposure to enterprise-level software systems and industry best practices in a high-stakes operational setting.

EDUCATION

Bachelor of Science in Software Engineering *2021 – 2026*

Haramaya University, Ethiopia

KEY PROJECTS

- **Full-Stack E-Commerce Website:** Online shopping platform with product catalog, cart, and secure checkout.
- **Project Management System:** Web app for teams to plan and track tasks, with user roles and task boards.

- **Scholarship Recommendation System (Final Year Project):** Intelligent system that matches student profiles to suitable scholarship opportunities.

TECHNICAL SKILLS
